Objective

Aspiring Front-End Developer with solid experience in modern web technologies, building Single Page Applications, and creating responsive and user-friendly interfaces. Passionate about integrating APIs, solving real-world problems, and continuously learning. Seeking a front-end internship to apply and grow my skills in a collaborative and agile environment.

Education

Bachelor's in Software Engineering

Faculty of Computers and Artificial Intelligence, Helwan University – Cairo, Egypt

Expected Graduation: 2026

Technical Skills

Languages:

HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries:

React.js (SPA), Angular (Basic), Bootstrap

Tools & Technologies:

VS Code, Git & GitHub, Azure DevOps

APIs & Web Integration:

- RESTful API integration using fetch, Axios, async/await
- DOM manipulation & event handling

UI/UX & Layout:

Responsive Design, Flexbox, Grid, Media Queries, CSS Animations

Version Control:

Git (branching, merging, pull requests)

Soft Skills

- Strong analytical and problem-solving skills
- Fast learner with adaptability
- Clear communicator and team collaborator
- Time management and task prioritization
- Self-motivated and detail-oriented

Projects

Gym Management System (Front-End Only)

- Built using React.js + CSS
- SPA design for Admin, Trainer, and Member dashboards
- Implemented role-based UI and dynamic navigation
- Stored and retrieved data using localStorage to simulate back-end

Reverse Recruiter Automation Tool

- Designed a front-end app to collect candidate data and send it to Python scripts
- Focused on form validation, responsive layout, and job suggestion UI
- Used animations, dynamic DOM rendering, and API triggers
